#### Yoemen Tounce Gonzales Apaches; Become 1951 Bi-District Champs

The fast stepping Yoemen rambled at will during all four quarters of the Bi-District game here Friday night against the Gonzales Apaches to capture the Bi-District Title, winning 40-12.

The Yoemen put on the fire works shortly after the first quarter got underway. Eldon Batte won the toss and elected to receive. Bobby Stanislaw returned the kick-off to the Yoemen 35, Glenn Rosenberg knifed through left tackle for nine yards on the first play. Batte hit Rosenberg with a pass and moved on down to the Gonzales 37 where on the next play Eddy Lankford on a hand off from Batte went over left tackle, broke into the secondary and scampered the rest of the way for the initial counter. Rosenberg added the PAT. 7-0.

After the kick-off, the Apaches could not get going and were forced to punt as the Yoemen line held like the Walls of Jericho.

As the second quarter got underway Rosenberg took a beautiful punt off the toe of Echols, Apache ace back, in his 20 yard line and in a sensational run back came all the way for the second tally. Yoemen blockers began to forming at the 40 yard line and as Glenn crossed the midfield stripe he was well in the clear and out ran the beefy boys. The extra point was good.

Four minutes later Echols kicked to Rosenberg on the Yoemen 12. He handed off to Lankford on the 10 and as in the previous TD scampered, the Yoemen blockers were spilling the Indians all over the field. Lankford squirmed his way to the 40 yard mark, where he suddenly broke into the clear. Although several Apaches tried to overtake him, he dashed the remainder of the 90 yards to score. The extra point was wide making the score 20-0.

Monday night.

At 7:30 p. m. everyone is invited to attend the musical program in the City Park. Mrs. Mark C. Magers will direct the program and many improvements are being made on this part of the big event. A platform will be constructed to allow a better view of the singing groups, improved lights will be installed and all parents have been requested to prevent their children from shooting fireworks in the park during the program.

Private Wall is a member of the 7th Cavalry Regiment.

#### Yoemen Tounce Gonzales Apaches; Become 1951 Bi-District Champs

The Yoemen threatened again in the second quarter but on fourth down they came up shy by one and one-half yards and the ball went over to the Apaches. The half ended with Gonzales team in possession of the ball on their own 38 yard line.

During the first half the Gonzales team did not cross over into the Yoemen territory.

During the half time ceremonies both bands put on outstanding performances that are commendable to any high school organization.

At the beginning of the third quarter the Apaches came back with a stone wall line and Batte was forced to punt which was taken by Burchard in his 33, returning to his 40. In three attempts at the (continued on page ten)

CECIL E. BURNEY

The meeting opened at 7:00 p. m. in the Blazilmar Hotel, in Taylor. Attorney R. J. Bartosh of Taylor, president of the Williamson County Bar group, presided.

President Burney urged that our citizens take care that their rights and liberties as American citizens are preserved for the future even as the documents embodying our Constitution and Bill of Rights are preserved. You will recall that steps have been taken in Washington recently to enclose those documents in special protective glass cases in order to prevent deterioration.

He also pointed out that lawyers are "the interpreters of liberty" and that it is their duty to keep the public informed as to the slightest encroachment upon their rights and liberties; that lawyers should explain to their neighbors the dangerous consequences, if any, incident to the federal government's entrance into various new fields of activities.

He asserted that the government cannot give us what it does not first take from us—that a government strong enough to give us everything we want it also strong enough to make from us everything we have.

Regulation footballs are used in the game.

The Red Raider team began to play football in 1948 with Mr. W. N. Ander as the coach. The team did not play regulation Pee Wee football the first year and played in whatever equipment they could obtain from the High School team.

#### Yoemen To Meet Speed Demons From La Vega In Regional Tilt Friday

The Cameron Yoemen and the La Vega Pirates will tangle for the Regional tilt at the La Vega field. Game time has been announced for 8:00 o'clock Friday night.

The La Vega Pirates are one of the undefeated and untied schoolboy teams in the state and sports writers have given them an edge over the Yoemen.

Starting slow but picking up speed as the season progressed the Pirates rolled over all opponents with ease. They took the Lampasas Badgers for a 43-6 beating at Woodson Field in Temple last Friday night for the Bi-District win.

The only comparative scores to judge the two teams by are the games with the Gatesville Hornets, second place winners next to Lampasas in District 22-A.

La Vega defeated Gatesville 24-12 while the Yoemen downed them 26-19. Both the Yoemen and the Pirates met the Gatesville team on ideal football nights.

La Vega will outweigh the Yoemen several pounds to the man as did the Gonzales Apaches. They showed much power and speed against the Lampasas Badgers, and should be plenty hard for the Yoemen to handle Friday night since they will play on their home field after winning the toss here Friday night.

Meanwhile the Yoemen fans were suffering from overwrought nerves. They are much older at this sort of thing since they have faced opponents for many seasons in the regional battle.

Shifty backs for the Pirates are Joe Tyler, Carroll Dailey and Billy Keller with a good forward wall.

Coach Paul Smith said Wednesday that regular workouts were still in progress at the Yoe High gridiron and everything was going along at the usual gate with no major injuries.

The Yoemen realize they have some tough opposition when they clash with the Pirates Friday night and the same good, clean sporting football that took place in last week's encounter with the Apaches is hoped for this week.

A large number of fans plan to attend the game and have already purchased tickets.

The speed displayed by all the Yoemen in the game with the Gonzales Apaches was some of the best seen this season, but the Yoemen will have their hands full in taking on the Pirates. Let's Go Yoemen and keep the winning streak going.

## Brazil Nut Stuffing Vies With Bird

Turkey holds a place of honor at holiday feasts. However, we can still add something new to its glory by way of an unusual stuffing. A Brazil nut and bread cube stuffing is new and truly excellent.

Creamy, chopped Brazil nuts add richness of flavor and texture to the bread base. It is this nut flavor that stimulates the family toward second helpings of a stuffing that will compete in interest with the turkey.

Shelling of the big, crinkly Brazil nuts for holiday use is simplified if the nuts are boiled about three minutes in water. Then drain and cover the nuts with cold water for a minute. Once the shells are softened, the nut meats can easily be removed.

As a special treat with the dessert course, serve toasted Brazil nut chips. Thin, lengthwise slices of Brazil nuts are dotted with butter, sprinkled lightly with salt and toasted 15 to 20 minutes in a moderate oven.

### Brazil Nut Turkey Stuffing

8 cups cubed, day-old bread 1/2 cup diced celery  
1 teaspoon poultry seasoning 2 cups finely chopped Brazil nuts  
1 1/2 teaspoons salt 1/2 cup butter or margarine  
2 small onions, finely chopped 3/4 cup boiling water

Combine in large mixing bowl, bread, seasonings, onion, celery and Brazil nuts. Melt butter in boiling water. Pour over bread and toss with fork until well mixed. Stuff into bird lightly.

YIELD: about 12 cups stuffing for 10 to 12 pound turkey.

If You Have United States Series E Bonds Maturing This Month

Your Government has a Christmas Gift for you!

Those Bonds Can Now Continue Earning For You For Ten Years Longer!

TEN years ago in the month of the Pearl Harbor attack, did you rush to the defense of your country with the purchase of United States Defense Bonds? If you have kept those bonds, here's some Christmas cheer for you.

Congress has passed a new law which makes it possible, now, for your bonds to continue earning interest ten years longer than was originally planned with absolutely no effort on your part.

For example, a Series E Bond which cost you \$18.75 in 1941 will pay you \$25 in 1951. But if you hold that bond ten extra years, until 1961, it will pay you \$33.33, an average interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You need not exchange the bonds you have. You need not sign any paper, fill out any form. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But holding on to your bonds is the smart thing to do if you can. For United States Bonds are as safe as America itself.

Bonds are safer than cash, too. For once lost, cash is gone forever. But if your bonds are lost or destroyed the U. S. Treasury will replace them at no cost to you.

So if you have bonds which are coming due this month, remember the new money-making chance your Government is giving you. Just hold onto your bonds and they'll go on earning for you. In the meantime keep up your regular saving with more U. S. Defense Bonds—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—

The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semi-annually at the rate of 2 1/4% per year. For full details, ask at any Federal Reserve Bank or Branch.

## Public Opinion Over Methods Of Reporting Accidents Cleared

Austin, November 29.—Public confusion over the method of reporting traffic accidents under the state's new Motor Vehicle Safety Responsibility Law was cleared up today by Public Safety Director Homer Garrison, Jr., who showed that any change in the present system is so slight that it should cause no difficulty among motorists.

The present confusion was brought about by the discrepancy in time for filing regular accident reports, which must be sent to the Texas Department of Public Safety within 24 hours, and the time for filing additional information under the Safety Responsibility Law, which may be sent to the Department within as much as 10 days. This gave rise to belief that motor vehicle owners and operators that they should be required to file two lengthy reports, which is not true.

Here are the rules for reporting traffic accidents beginning January 1, when the Safety Responsibility Law becomes effective, as explained by Director Garrison for the guidance of all motorists:

Under the state's Uniform Traffic Law, the operator of every motor vehicle that is involved in an accident resulting in death or injury to a person, or total property damage to an apparent extent of \$25 or more, must file a complete written report with the Texas Department of Public Safety within 24 hours, exactly as they do now. Official forms for this purpose may be obtained from any sheriff's office, local police station, highway patrolman or the Texas Department of Public Safety, as at present. In other words, there is no change whatever in the present rules for reporting accidents of the type just described.

When you obtain a regular accident report, beginning January 1, there will also be furnished along with it an Insurance Information Form, labeled Form 21, which must be filled out completely and accurately should the accident in which you were involved result in death or injury to a person, or property damage to any one person, including yourself, in excess of \$100 since this will bring the accident number the provisions

of the new Safety Responsibility Law. If the accident did not involve death or injury to a person, or property damage to any one person, including yourself, in excess of \$100, you may disregard this Insurance Information section. If you are required to file it, however, be sure that you still get the regular accident report section of the Texas Department of Public Safety within 24 hours, despite the fact that you may take up to 10 days to send in the insurance section.

Vehicle Slightly  
Damaged By Santa  
Fe Train Thursday

According to Sheriff Carl Black, a northbound Santa Fe passenger train crashed into a 1938 International pickup on the track approximately four miles west of Cameron at 11:00 P. M. Thursday, November 22.

After investigation, it was disclosed by Sheriff Black that the pickup belonged to Pete Horelica. The pickup was partially damaged. Mr. Black said there was no one in the vehicle at the time of the wreck. It was reported that some groceries were left in the seat of the car.

There has been considerable construction work done on the railroad in that section of the county and the loose gravel sometimes makes it difficult for automobiles to cross the tracks.

Wrap Packages Good  
And Mail Early To  
Avoid Christmas Rush

"First class friends deserve first class mail." Postmaster John R. Hays declared today as the arrival of Christmas cards and gift packages in heavy volume indicated that the Yuletide Season has officially begun.

By way of explanation, the Postmaster said, "Most of our grief is caused each year by hastily scribbled addresses that we can not read, or Christmas cards being sent as third class mail which we can not forward or return if the addressee has moved. Loosely wrapped gift packages are other trouble makers that can be avoided."

"Wrap your shipping cartons carefully, with a good cord pulled over and under several times around. Stuff your packages properly to cushion any fragile items they may contain. Use heavy wrapping paper to help insure a safe and sound delivery."

"And remember, packages are limited to 70 pounds in weight, and must not exceed 100 inches in length and girth combined."

Special care should be given to writing or printing all names and addresses clearly. No hasty scratching, please. Christmas seals may be placed only on the backs of packages.

Time In Two Years

Accompanying Mr. Shafer were eleven of his workers from the West Coast. The group had their Thanksgiving dinner at the Shafer home, which was served buffet style.

Self-Employed Now  
Under Social Security

Are you working for yourself as the owner of a trade or business? If so, you may be one of the 4 1-2 million individuals who became covered for the first time under the Social Security Act on January 1, 1951, according to a statement by James B. Marley, manager of the Austin office of the Social Security Administration today, until this year, it was not possible for a self-employed individual to earn credits towards old age and survivor's insurance benefits.

The first thing to do is to be sure you have a social security card. If you have had a card before and lost it, you should get a duplicate card at your nearest field office. If you have never had a card, the field office will assign one to you. This is the only action which is necessary at this time. Self employed individuals make only one report each year to the Social Security Administration regarding their net earnings. This report will be a supplement to the regular income tax return filed with the Collector of Internal Revenue at the end of the year. They do not report themselves on the quarterly returns filed with the collector for their employees; therefore, in most cases no reports will be required until March 1952. Self-employed individuals, with the exception of farm operators and certain professional groups who were excluded by law, are covered on a compulsory basis. There are only two requirements to be met. One is that the business or professional is not one of the groups excepted by law. The other is that the individual have net earnings from self employment of at least \$400 during the taxable year. All individuals who meet these two requirements are covered and will be required to file an annual report on their net earnings. Unless you have net earnings from self-employment of at least \$400 for a calendar or taxable year beginning on or after January 1, 1951, it is not necessary for you to make the report at the end of the year. You can get full information in one package. Ask the Austin Social Security Office for Booklet No. 22.

## A New High in Pie

There's news today! A brand new flavor in a pudding and pie filling mix—coconut cream—is now on the market! Brought out by a well known food manufacturer, it's rich in flavor, creamy in texture, has just the right amount of coconut blended right in and quite literally is "as good as home-made!"

It is mighty versatile too—equally adaptable for pudding or pie filling. Simple too! Just add 2 cups of milk and cook about 5 minutes. It's ideal, either plain or combined with other flavors.

Take this Chocolate Coconut Cream Pie, for example—a glamorously different pie, with chocolate used in the unbaked pie crust and flaked on top. This is just one of many delightful recipes for this new red letter dessert.

### Chocolate Coconut Cream Pie

- 1 package coconut cream pudding and pie filling mix
- 2 cups milk
- Chocolate Graham Cracker Crust
- 1/2 cup cream, whipped and sweetened
- 1/2 square unsweetened chocolate

Place pie filling mix in saucepan. Add milk gradually, blending well. Cook and stir over medium heat until mixture comes to a full boil and is thickened. Cool slightly (about 5 minutes), stirring once or twice. Turn into pie shell. Chill. Spread with whipped cream. Shave chocolate on top.

### Chocolate Graham Cracker Crust

Grate 1 square of unsweetened chocolate. Add 1 cup fine graham cracker crumbs, 2 tablespoons sugar, and a dash of salt; mix well. Then add 1/4 cup melted butter. Press firmly on bottom and sides of 8-inch pie pan. Chill.

## Highway Department Designates Work As Soon As Funds Available

The State Highway Commission has passed an order which designates Farm to Market road construction in Milam County, a road from U. S. 190 at Bucknolls to end of F. M. 485 at Yarrington, a distance of approximately 7.6 miles, is designated subject to the availability of funds in the farm to market road fund of the State Highway Department as established by Senate Bill 287, Acts 1949, 51st Legislature and appropriated by House Bill Act, 426, Acts 1951, 52nd Legislature.

This provides for the improvement of farm to market roads by the Texas Highway Department during the biennium from September 1, 1951 to August 31, 1953, and subject to the further condition that Milam County will furnish all required right of way free of cost to the State.

Upon acceptance of the provisions of this order by the proper officials of Milam County the State Highway Engineer is directed to proceed with the preparation of plans for the construction and when right of way funds are available to proceed with construction and to assume the road for maintenance upon completion of construction.

The Texas Farm to Market road system has its beginning at the close of World II, when the Highway Department embarked on a program of construction of important farm to market roads to extend all weather traffic service into rural areas of the state.

## "Fair and Square"

We've just had a political campaign with everything from a torchlight parade to a neck-and-neck ballot box race.

Rusty Robinson, with no campaign funds, planned his Election Eve speech for the Square. Slim McCormick, who owns the Palace movie house, was finishing up his campaign in Pioneer Hall.

Then it began to rain. Rusty's political career was fizzling out in the damp when Slim showed up to say that Robinson people could meet in his theatre—for nothing. "I want to beat Rusty," Slim said,

"but certainly not with rain!" From where I sit, you've got to give Slim credit for acting on his belief that everyone has a right to be heard—just as everyone has a right to his own opinions and tastes. Maybe you like hot coffee, for instance, when you "take a break." Well, my vote goes for a refreshing glass of beer. After all, we're lucky to be living in a free country where we can have our own preferences!

**YOEMEN—**  
line and one jump pass, the Apaches were unable to rack up first down yardage and Echols punted to Rosenberg who took the ball on his 32 and ran for the 68 yard TD. Rosenberg's change of pace was a reminder of some that he had done earlier in the season. He also added the extra point.

The Gonzales team came back charging hard after the kick-off and racked up two first down as they penetrated into Yoemen territory or the first time but were forced to punt. Lankford faked the punt off to Rosenberg on his 34, keeping the ball headed for the north sideline and marched on for the score and his third TD of the night. Batte kicked the extra point.

Shortly after the final period got underway, the Gonzales team began passing, completing on with Burchard tossing to Allen for first down. Rosenberg intercepted Burchard's pass on the Apache's 27, returning to the 7 yard line where he was bumped out of bounds. Bobby Biskup on a sneak through left tackle went over for the score, making the score 40-0, as the PAT failed.

The Apache's took the on side kick in midfield as it failed to travel sufficient yardage for Cameron to retain the recovery. Robinson, 190 pound full back, began hammering at the Yoemen defense only to get just enough yardage for a first down. On alternate tries by DeBerry and Robinson, the Apaches maneuvered the ball down to the Yoemen 20. Here Burchard hit Echols with a pass just before he was knocked out of bounds on the Yoemen 4.

Robinson plowed the Yoemen 1 and on the next play went over for the score. The extra point was wide.

After an exchange of punts the Apaches opened up their aerial attack again, as Burchard passed to Echols on his 42 and he headed for the Yoemen goal line only to be overtaken on the Yoemen 14, where he was bumped out of bounds by Lankford whose speed was not to be outdone even though he had ran all over the field during the night's play.

Again Burchard found Echols on the goal line for another TD for the Apaches. Again the extra point went wide, making the final score 40-12.

Rushing yardage gained by the Yoemen was 238, by the Gonzales team, 150. The Yoemen completed one pass for 18 yards. The Apaches accounted for 34 yards in five completions out of 14 attempts.

The Yoemen defense deserved commendable praise along with the speedy offense as they managed to hold off the power attack that the Apaches have displayed in all of their games this season.

All of the Yoemen played hard and fans here should be amazed proud of the team. The game next week will be played at La Vega, for the Regional title.

The Yoemen were penalized heavy three times in the first half. The Yoemen chalked up nine first downs to six for the Apaches. On the whole all the Yoemen played a whale of a game as power fell victim to speed.

## Church Offers Scouts Meeting Place

The First Presbyterian Church advised the Girl Scout Council that a troop would be welcomed to meet at the church once a week during this current scout year. The Council was very glad to have this space for one of its troops and appreciate the help of Rev. Solomon in bringing the matter before the church.

It is hoped before the week is out other churches will see fit to allow troops to meet in their buildings until a permanent place is made available for them.

Requests have been made to the Business and Professional Woman's Club for the use of their dining room and to the School Board for the use of an upstairs room in the Old School Building. If these places are secured in addition to one more space at a church, sufficient meeting places would be had.

The Catholic Brownie Troop met Monday with its leaders and made a trip to the hospitals and toured Glass The Florist, and saw all the beautiful flowers on display for their open house. While at the hospitals they delivered plate favors of little turkeys they had made for the Thanksgiving trays.

## Cameron Gets .42 Inches Rainfall

Rainfall for Saturday, November 24, up to noon was reported at .42, according to Mrs. Alva Sanders, at the Water Department. No reports could be obtained on precipitation for Sunday and Monday up to 9:30 A. M.

It was reported that heavier showers fell in some areas of the county. Farmers who have no water are still hoping for more rainfall, however a number of farmers that are harvesting peanuts were still welcoming dry weather. Only a fair yield is expected this year from this crop. The county is usually among the leading counties in the state on peanut production.

### FIRST CHRISTMAS

You are a Christmas baby  
With your blue eyes and curly hair

And the happiest disposition  
"Like an angel," we all declare.  
Soon you will have your first Christmas

Your soft eyes will dance with delight  
At the tree and its burdens of beauty  
And the fairy land of light.

Let us tell you, when you grow older  
Of the Christ Child of long ago  
Who lay in a stable manger

While the stars were all aglow.  
Soon, you will have your first Christmas  
And the carols will ring on the air

And you will be dancing and happy  
With your blue eyes and golden hair.

being named on the Pop Warner All-American Pee Wee team. He was the only player from Texas on the team. He will be in the line-up in the Milk Bowl.

This season has been the most successful. From the past year's experience the Raiders knew that being merely undefeated apparently was not enough to get into the Milk Bowl. Therefore they scheduled games with the top teams in the State and the Raiders defeated them all. They have wins over the two previous Milk Bowl representatives, Mexia and Gause. The Raiders have scored 202 points to only 25 for their opponents which is an average of almost 30 points to 3 1-2 per game.

The Red Raiders 1951 record follows:

Raiders 34, Milano 0.  
Raiders 33, Thrall 0.  
Raiders 13, Mexia 12.  
Raiders 19, Marlin 13.  
Raiders 45, Marlin 0.  
Raiders 46, Gause 0.

The Raiders are being coached by Richard Newton Butts and Elfred Stelzer and have developed a well balanced attack which aided in gaining this Milk Bowl berth.

The game on December 8, will be broadcast over several stations one of which being station KWTX, 1230, Waco.
